Automotive & e-Mobility

Industry

Aerospace and Defense

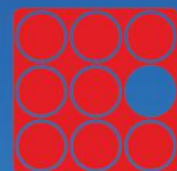

From Design to Manufacturing

5 Steps project management service work flow :

- Design review & expert support
- Prototype service
- Qualification & PPAP
- Pre-series & Ramp Up production
- Series Manufacturing

AMD Décolletage Member of GROUPE SAVOY

**GROUPE
SAVOY**

Groupe Savoy is an industrial group offering mechatronics, plastic injection and mechanics innovative solutions worldwide, and servicing some of the most challenging markets as Automotive.

**AMD
DECOLLETAGE**

Explore the World of Precision

Key Fact :

- 12 000 m² of Production area
- 175 Employees
- Over 300 million parts produced per year
- 30 % Connectic - 30 % e-Mobility
- 30 % Automotive - 10 % Industries

AMD Decolletage is committed to managing environmental impact by filtering all fine-particle emissions larger than 1 micron, beyond European standards.

Our industrial performance is deployed around our LEAN SAVOY INTERNATIONAL 4.0.

PRECISION MACHINED COMPONENTS

Capability from Ø 1 to 42 mm

TURNING & TRANSFER TECHNOLOGY

Traditional cam and CNC, single and multi-spindle turning lathes

Rotary transfer machine for second operation of complex parts

QUALITY CONTROL

100% vision, inspection machines

E-Mobility interconnection

- Socket & pin terminals
- AC / DC / Signals
- Type 1 & 2
- GBT
- CCS 1 & 2
- Chaoji
- NACS

Machined contacts Pins & Sockets

- Contact manufacturer since 1978
- Zone annealing
- Heat treatment
- Selective plating
- Assembly

High Precision Components

Industrial Manufacturing Services

- High precision turning
- Tightest tolerances
- Custom made solutions
- Small, medium & large volumes

Raw Material

All types of stainless steels, free cutting steels, special steels, copper alloys, nickel alloy (INCONEL 600), aluminum
